

MD SARFARAZ AFZAL

+91-7449483887 • mohammadsarfaraazafzal@gmail.com • LinkedIn • GitHub • Portfolio

Final year BTech CSE student with 9.66 CGPA. Completed Infosys Springboard Internship developing enterprise platform with 50+ APIs serving 100+ users. Proficient in React, Node, Spring Boot, and database technologies with proven ability to deliver scalable solutions.

EDUCATION

• Bachelor of Technology, Computer Science and Engineering	2022 – 2026
• <i>MCKV Institute of Engineering, Howrah, West Bengal</i>	89%
• Higher Secondary Education, West Bengal Council of Higher Secondary Education	2022
• <i>Md Jan High School</i>	87.4%
• Secondary Education	2020
• <i>Howrah Muslim High School, West Bengal Board of Secondary Education</i>	88.14%

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, SQL, HTML/CSS

Frameworks & Libraries: ReactJS, Spring Boot, NodeJS, ExpressJS, Hibernate, TailwindCSS, Bootstrap

Databases & Tools: MySQL, MongoDB, Git, GitHub, AWS, Render, IntelliJ IDEA, VS Code

PROFESSIONAL EXPERIENCE

Infosys Springboard Virtual Internship 6.0

Sep 2025 – Nov 2025

Infosys Springboard

- Collaborated with 5-member cross-functional team to develop enterprise study collaboration platform by implementing 10+ features including real-time WebSocket chat, event scheduling, and file management, serving 100+ users with 99% uptime.
- Engineered 50+ RESTful API endpoints using Spring Boot and Hibernate with JWT authentication, eliminating unauthorized access and securing user sessions with BCrypt hashing and role-based access control for admin and member roles.
- Built responsive React frontend with TypeScript by integrating STOMP protocol for real-time messaging, achieving instant delivery to 100+ concurrent users with automatic reconnection and Context API state management.
- Prepared technical documentation and test reports achieving 85% code coverage, reducing developer onboarding time by 60% following Agile methodology.

PROJECTS

Edunion (Study Collaboration Platform)

Live | GitHub

React, TypeScript, Spring Boot, MySQL, WebSocket, JWT, Cloudinary

Infosys Internship Project

- Developed real-time chat system supporting 7 message types (text, images, PDFs, documents) by implementing WebSocket/STOMP protocol, enabling instant communication for 100+ users across 20+ study groups with 10MB file uploads.
- Architected automated event scheduling with Gmail SMTP integration and cron jobs running every minute, reducing missed study sessions by 75% through reminder alerts sent 30 minutes before events to all active group members.
- Optimized database queries by designing normalized 10-table schema with JPA lazy loading and pagination (50 messages/page), reducing response time by 40% while efficiently handling 1000+ chat messages.

SpicyTouch (Restaurant Management System)

Live | GitHub

ReactJS, Redux, NodeJS, ExpressJS, MongoDB, TailwindCSS

- Built full-stack restaurant platform by implementing JWT authentication, table booking for 50+ reservations, and order processing for 200+ orders, increasing customer engagement by 45% and reducing booking errors by 80%.
- Developed admin dashboard with CRUD operations managing 100+ menu items and order workflow, reducing administrative overhead by 60% and improving fulfillment time by 35% through MongoDB optimization.

ACHIEVEMENTS & CERTIFICATIONS

- National Semi-Finalist in Flipkart GRiD 7.0 competing with 160K+ participants; advanced through 2 elimination rounds.
- Participated in Smart India Hackathon 2024 solving government problem statement in 36-hour sprint with 6-member team.
- Certified in Infosys Springboard Java Foundation (90% score) and IBM SkillsBuild AI Fundamentals (40+ hours).
- Secured Top 10 position in Inter-College Hackathon among 50+ teams; competed in Inter-College Technical Quiz (Top 3/200+).
